GitHub: github.com/mlikita

Visakhapatnam, Andhra Pradesh, India

Objective

Motivated and detail-oriented **Data Science student** skilled in **Python, SQL, Machine Learning, Data Analysis, and Data Visualization** with hands-on experience in predictive modeling, exploratory data analysis, and problem-solving. Seeking internship opportunities to apply analytical and technical skills in real-world projects while contributing to organizational growth.

Education

Raghu Engineering College

B.Tech in Data Science | **CGPA: 9.16/10**

Visakhapatnam

2023 – 2027

– **Relevant Coursework:** Data Structures, DBMS, Operating Systems, Machine Learning, Data Analytics

Internship Experience

Data Analyst Intern

Unified Mentor Pvt Ltd

Mar 2025 – Apr 2025

Remote

- Performed **data preprocessing, cleaning, and analysis** using Python, Pandas, and NumPy.
- Analyzed datasets containing **10,000+ records** to identify patterns and actionable insights.
- Created **data visualizations and reports** to improve interpretation and business decision-making.
- Gained hands-on experience in real-world **data analytics workflows** and reporting techniques.

Projects

Instagram Influencer Analytics using Machine Learning

- **Technologies Used:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- Performed exploratory data analysis on influencer engagement metrics and audience interaction patterns.
- Developed a **Random Forest Regression Model** for influencer score prediction and analytical insights.
- Visualized trends and analytical findings using Matplotlib and Seaborn for effective interpretation.
- **GitHub Link:** github.com/mlikita/instagram-data-analysis

Retail Grocery Sales Forecasting System

- **Technologies Used:** Python, Pandas, NumPy, Scikit-learn
- Cleaned and transformed datasets by handling missing values, duplicates, and inconsistent entries.
- Performed exploratory data analysis to identify **sales trends and customer demand patterns**.
- Built a **Ridge Regression Model** for grocery sales forecasting and prediction analysis.
- **GitHub Link:** github.com/mlikita/grocery_sales_analysis

Technical Skills

Programming Languages: Python, SQL, Java

Database: MySQL, PostgreSQL

Libraries & Frameworks: Pandas, NumPy, Scikit-learn

Data Visualization: Matplotlib, Seaborn

Core Skills: Machine Learning, Data Analysis, Exploratory Data Analysis, Data Structures and Algorithms, Problem Solving

Tools & Platforms: Jupyter Notebook, VS Code, Excel, GitHub

Certifications

- **Data Analytics Job Simulation** – Deloitte (Forage)
- **Joy of Computing Using Python** – NPTEL
- **Programming with Java** – NPTEL

Achievements & Activities

- Participated in a workshop on **Generative AI and Artificial Intelligence** conducted by IIT Hyderabad.
- Delivered a workshop on industry establishment processes for **20 participants** and contributed to the development of **five market-oriented initiatives**.
- Participated in National Science Day mini project activities and collaborative technical presentations.
